

Scenario Name								
Team Name								
Judge								
Rotation Number								
Briefing (Captain and Judge)							Notes	Score
Environment (e.g. wind direction, first aid, evacuation, hazards, animals, recon)	1	2	3	4	5			
Entry - air monitoring, permit, LOTO, con space	1	2	3	4	5			
Number of Patients (e.g. last contact, patient status)	Y	N						
Additional Resources (i.e. ALS, life flight, trauma/burn center, official representative)	Y	N						
MOI / NOI (e.g. what happened, what were they doing, witnesses)	Y	N						
Extrication (e.g. access to get to patient and access to get them out)	Y	N						
							0	
Captain Duties							Notes	Score
Quality of captain brief to team	1	2	3	4	5			
Maintain safety of team members and victim(s) throughout scenario	1	2	3	4	5			
Maintain accountability of team members and victim(s) throughout scenario	1	2	3	4	5			
Captain assigns roles and communicated the rescue plan	1	2	3	4	5			
Captain promotes a calm, measured and focused approach to the rescue	1	2	3	4	5			
							0	
Anchors							Notes	Score
Appropriate anchor point(s) / change of direction chosen and built safely	1	2	3	4	5			
Appropriate padding on anchors	1	2	3	4	5			
							0	
Equipment							Notes	Score
Overall team proficiency using rescue equipment	1	2	3	4	5			
Care for equipment	1	2	3	4	5			
							0	
Knots							Notes	Score
Number of knots incorrectly dressed	0	1	2	3	4+			
Knots appropriate for task (e.g. headspace)	1	2	3	4	5			
							0	
Lower / Haul System							Notes	Score
Safety check performed before loading system	Y	N						
System loaded and checked for stability / alignment before beginning movement	Y	N						
Smoothly operated lowering / haul system	1	2	3	4	5			
Smoothly operated safety system	1	2	3	4	5			
Appropriate equipment chosen for scenario	1	2	3	4	5			
Were ropes free from abrasion / rubbing	1	2	3	4	5			
DCDs locked and tied-off when unmanned when used as static line	Y	N						

						0	
Patient Care						Notes	Score
Did rescuer ask permission to treat	Y	N					
Correct patient positioning based on injury (horizontal vs. vertical)	Y	N					
Patient's safety maintained (helmet and glasses - LIVE PATIENTS ONLY)	Y	N					
Patient lashing installed correctly (i.e. minimum of seat harness and patient lashing, mirrored lashing unless for specific reason)	Y	N					
Injuries managed appropriately	1	2	3	4	5		
Patient ride smooth / level / controlled	1	2	3	4	5		
Did a team member stay in verbal or physical contact with patient at all times	Y	N					
Reassured, comforted and made aware of rescue plans and medical interventions	1	2	3	4	5		
Time to physical patient contact							
						0	
Patient Turnover to ALS						Notes	Score
Where and How was patient(s) found	Y	N					
Mol / Nol	Y	N					
How was patient extricated / brought to higher level of care	Y	N					
Interventions done	Y	N					
Time of patient turnover to ALS							
						0	
Captain Turnover to Judge							
Verbally verify team accountability	Y	N				0	
Verbally verify team safety	Y	N				0	
Time to scenario completion - all members and gear inside finish box - Captain to tell judge when done							
						0	
General						Notes	
Did team members maintain personal safety at all times (i.e. 3-points of contact, no running, maintained PPE, etc.)	1	2	3	4	5		
						0	
Penalties						Notes	Score
Pieces of gear not recovered when time called by captain (1st - 3rd piece of gear -5 pts each, 4th piece is considered all gear abandoned: -50 pts)	0	1	2	3	4+	0	
Pieces of gear dropped from a height greater than 6' (-15 per occurrence)	0	1	2	3	4+	0	
Number of all stop issued by judge (imminent safety violation) (-15 per occurrence)	0	1	2	3	4+		
Travel restraints not used within 6' of hole/unprotected edge (-15 per occurrence)	0	1	2	3	4+	0	
						0
